WE HONOR VETERANS

Page 2

This month we celebrate freedom thanks to those who came before. Those brave men who fought and died in each and every war. Freedom always comes at a price, And while we celebrate We should tip our hats to the heroes who made our country great.

We honor Veterans

PSi supports and honors the veterans by wearing a red shirt each Friday

For over 50 years Precision Stampings, Inc. has been manufacturing micro miniature, miniature, and medium sized metal stamped parts. Since its inception, PSi has made a commitment to support and honor our troops.

As a company both the employees and the “top management” team have been dedicated to wearing a red shirt every Friday in remembrance of the price our veterans paid for the freedoms all of us so enjoy and treasure.

In conjunction with wearing red shirts on Friday’s, PSi has been honored to employ many, many wonderful individuals who have served our country proudly in armed services. To date they continue to strive to provide meaningful work to individuals in their community that have so graciously given of their time to make the community safe as well as the world.

PSi is not only proud to continue to honor their veteran’s, but is proud to be a US based manufacturing company. PSi believes the USA is the greatest place to live, work, and build quality product backed by exceptional service and lead-time.

If you are looking for a company that endeavors to give back to veterans and community, while producing quality workmanship in the USA, in the areas of metal stamping, plating, heat-treating, tool & die, EDM and more, then look no further!

PSi is excited about the possibility of earning your business and developing a long lasting, mutually profitable business relationship while remaining loyal to Beaumont, California and the surrounding areas.

Please consider PSi as a valued supplier for all your metal stamping needs. This month PSi gives a special salute to all the brave veteran’s and their family’s for without these heroes they would not exist.

- PSi is continuing its expansion in engineering capabilities. More to come.
- PSi is increasing its manufacturing space/sq. footage in creating a new assembly area that will include, but is not limited to, 4 additional presses to our already impressive line-up!
- PSi adds additional offices upstairs for estimating and sales.
- PSi is now ISO 9001:2015 certified and working towards becoming IATF certified.
